VISHNUVARDHANA CHARY SRIRAMOJU

Product Designer | AI Product & UX
Hanamkonda, Telangana | +91 6301628716 | vishnuvardhana0402@gmail.com | vishnuvardhana0402.github.io/Vishnu

PROFILE

Product Designer with 2+ years designing AI-native products - LLM-powered agents, conversational and voice interfaces, and predictive UX. I translate complex AI capabilities into clear, trustworthy, production-ready experiences across agentic workflows, intent-based interaction, and context-aware systems. Strong across the full product design cycle: user research, information architecture, interaction design, prototyping, design systems, and engineering handoff.

EXPERIENCE

Product Designer | Huemn Interactive Private Limited, Hyderabad

Aug 2025 – Present

VE.AI — AI-powered productivity & intelligent workflow platform

- Work end-to-end across product design for VE.AI, partnering with product and engineering to turn complex AI capabilities into intuitive, production-ready experiences.
- Designed AI prediction and intent-based experiences that understand context and anticipate users' next actions.
- Designed AI agent experiences for task automation, contextual actions, and human-AI collaboration.
- Designed conversational AI and voice (Speech-to-Text) interactions combining voice input, contextual understanding, and AI-powered actions.
- Designed Intent Email, Adaptive Memory, and AI Browser experiences: intent-drafted email assistance, personalization that improves with use, and a browser that adapts to context and organizes workflows.
- Built high-fidelity prototypes covering AI interactions, system states, prompt patterns, and intelligent workflows for review and iteration.
- Developed a reusable component library and interaction patterns that keep VE.AI's surfaces consistent and faster to build.

UI/UX Designer | Incor Lake City Projects Private Limited

Sep 2023 – Jul 2025

- Produced digital creatives - promotional posters, marketing banners, and campaign assets - for a range of business and communication needs.
- Owned typography, composition, imagery, and visual hierarchy, keeping brand consistency across every asset.
- Adapted master designs into multiple sizes and formats for digital and promotional use.
- Collaborated with internal teams to scope creative briefs and deliver on deadline.

SELECTED PROJECTS

VE.AI — AI-Powered Productivity Platform: End-to-end design across AI prediction, intent recognition, AI agents, conversational interfaces, voice interaction, adaptive memory, and context-aware workflows.

WanderWise — Travel Application: Designed a one-stop travel app end to end - user flows, wireframes, full UI screens, and an interactive prototype.

Tata Neu — Redesign Concept: Analyzed real user reviews to surface recurring frustrations and translated the findings into UX and UI redesign improvements.

SKILLS

AI Product Design

AI Product Design • Human-AI Interaction • AI Agents • Agentic UX • Generative AI • Conversational AI • LLM UX • Prompt & Interaction Design • AI Workflows • Predictive UX • Intent-Based UX • Context-Aware UX • Voice UX

Product & UX

End-to-End Product Design • User Research • Personas • Journey Mapping • Information Architecture • User Flows • Wireframing • Interaction Design • Prototyping • Usability Testing • Design Thinking

UI & Visual Design

Visual Design • Typography • Color Theory • Responsive Design • Mobile-First Design • Accessibility/WCAG • Design Systems • Component Libraries

Tools

Figma • FigJam • Framer • ChatGPT • Claude • Adobe Photoshop

EDUCATION

B.Tech — Computer Science & Engineering 2019 – 2023

Vaagdevi Engineering College, Warangal, Telangana

CERTIFICATIONS

- UX Enthusiast Badge
- Mobile Application Design Certificate
- Designing for B2B Product Certificate
- Certificate of Proficiency in UI/UX
